SUMMARY

Full-stack software engineer with experience building automation systems, AI-powered platforms, internal tooling, and developer-facing applications. Proficient across the modern web stack — Python, TypeScript, React, Next.js, FastAPI, PostgreSQL, and Supabase — with hands-on experience in multi-agent LLM orchestration, vector search, CI/CD pipelines, and REST API design. Proven leader in Agile environments with a strong background in technical mentorship, cross-functional collaboration, and shipping production-grade software.

TECHNICAL SKILLS

Languages: Python · TypeScript · JavaScript · C# · SQL · Kotlin · HTML5 · CSS3

Frameworks: React.js · Next.js · FastAPI · ASP.NET Core · Node.js · Tailwind CSS · shadcn/ui

Databases: PostgreSQL · Supabase · pgvector · MySQL · MongoDB · SQLite · Vector Embeddings

DevOps & Cloud: Git · GitHub Actions · Docker · CI/CD · Azure · Vercel · Render · Ubuntu Server

AI & Systems: Multi-Agent Orchestration · RAG Pipelines · LLM APIs · Embeddings · WebSockets · SSE · REST

EXPERIENCE

West Texas A&M University · Computer Information Systems Tutor · *Canyon, TX* · May 2024 – Present

- Mentored **20+ students per semester** in C#, JavaScript, and SQL across **5+ core CIS courses**, facilitating structured code reviews and debugging sessions that contributed to improved student retention rates.
- Designed and deployed a **React.js web application** for finance coursework, improving access to learning resources for **100%** of enrolled students.

Sabio Enterprises Inc. · Software Engineer Instructor · *Remote* · Nov 2022 – Jun 2023

- Engineered a comprehensive React automation testing suite, reducing support ticket volume by **40% per cohort** and freeing **15+ hours of weekly instructor time** for higher-complexity architectural guidance.
- Led daily Agile standups and async code reviews for **40+ junior developers** across a fully distributed remote team, achieving a **90% student satisfaction rate**.

The Institute to Advance Diversity · Software Engineer · *Irvine, CA* · May 2022 – Aug 2022

- Engineered full-stack features using **ASP.NET Core and React**; optimized SQL Server stored procedures and UDTs for a **16-person development team**; maintained CI/CD workflows with **zero deployment downtime**.

U.S. Army — 173rd Airborne Brigade · Team Leader · *Vicenza, Italy* · Jul 2016 – Dec 2018

- Led **14 personnel** in high-stakes rapid-deployment operations; managed **\$2.5M+** in assets with **100% inventory accuracy**; awarded **7 Army Achievement Medals** for leadership, logistics, and adaptability under pressure.

FEATURED PROJECTS

FintelliSense · Python · FastAPI · Next.js · Supabase · pgvector · Google Gemini · Vercel · Render 2024 – Present

- Institutional-grade financial intelligence platform powered by a **6-agent multi-agent orchestration system** with a Governance Phase, parallel Squad execution, and Master Synthesis via **Google Gemini 3 Flash**.
- Integrated **28+ external APIs**; built a **pgvector semantic search layer (768-dim embeddings)**, Brier Score prediction calibration, real-time WebSocket dashboard, and SMTP email delivery.

Classroom Schedule Display · **BuffTeks** · FastAPI · Python · MySQL · JavaScript · GitHub Fall 2025 – Present

- Leading an **11-member volunteer team** as President of BuffTeks to build a campus touchscreen reservation system with **QR code scanning**, **WT email authentication**, SSE real-time sync, and a full CI/CD pipeline on a self-managed remote Ubuntu server.

Among Buffs · **Digital Classroom Game** · Next.js · TypeScript · Supabase · Tailwind CSS Spring 2026

- Project Manager and Lead Developer on a **formally SRS-documented** web platform replacing a manual classroom game with real-time voting, **synchronized multi-device timers**, server-side role assignment, and automated win-condition detection.
